\$FLIR

THERMAL MSX° VIDEOSCOPE KIT WITH RECTANGULAR PROBE TIP

FLIR VS290-32™

The FLIR VS290-32 is an industrial thermal and visual videoscope designed to help professionals quickly and safely find hidden dangers in difficult-to-access locations, especially underground electrical distribution vaults. Featuring a 160×120 true thermal imager and FLIR MSX® (Multi-Spectral Dynamic Imaging), the VS290-32 enables users to catch hot spots before a failure occurs to maintain uptime. The 2 m camera probe makes it possible to easily inspect through small openings — improving productivity and reducing diagnostic time. Plus, the CAT IV 600 V safety rating makes the VS290-32 a rugged and versatile tool for the most demanding environments in utility, manufacturing, and building maintenance applications.

INSPECT INACCESSIBLE AREAS SAFELY

Quickly find hidden faults without entering difficult-toaccess locations and other hard-to-reach spaces

- Troubleshoot problems from a safe distance with the 160 x 120 true thermal imager and 2 MP visual camera
- Easily maneuver the narrow 2 m field-replaceable camera probe to inspect underground electrical distribution vaults, inside large gearboxes, motors, attics, crawl spaces, and other industrial applications
- Instantly recognize the location of a temperature issue with FLIR MSX, which extracts scene details from the built-in visual camera and embosses them onto the full thermal image

IDENTIFY, DOCUMENT, AND SHARE

Improve workflow and communicate potential issues before they become major problems

- View findings clearly on the large 3.5-inch color display, and use color alarms (isotherms) to quickly identify areas of concern
- Save images and videos using the included SD memory card, and upload to a PC via USB-C Cable
- Quickly create and share reports with team members to prioritize repairs using FLIR Thermal Studio

VERSATILE, RUGGED, AND RELIABLE

Use the VS290-32 in the most demanding environments

- Provides a high level of protection against dust and water (IP67 rated camera tip, IP54 rated base unit and probe)
- Easily replace the camera probe while in the field
- Conduct electrical inspections safely (CAT IV 600 V rated)

SPECIFICATIONS

Imaging and optical data	
IR resolution	160 × 120 pixels
Digital image enhancement	Yes, MSX®
Thermal sensitivity/NETD	<100 mK
IR Field of view (FOV)	57° × 44°
Minimum focus distance	0.15 m
Image frequency	8.7 Hz
Focus	Fixed
Focal plane array/spectral range	Uncooled microbolometer/7.5–14 µm
Detector pitch	12 µm
Image presentation	
Display resolution	320 × 240 pixels
Screen size	3.5 in
Color palettes	Iron, Rainbow, Gray, Below alarm, Above alarm
Image modes	IR only, Visual only, MSX
Gallery	Yes
Measurement and analysis	
Object temperature range	-10 to 400°C (14 to 752°F)
Measurement accuracy	At ambient temp. 15 to 35°C (59 to 95°F) and object temp. above 0°C (32°F) 0 to 100°C (32 to 212°F): \pm 3°C (\pm 5.5°F) 100 to 400°C (212 to 752°F): \pm 3%
Spotmeter	1 in live mode
Measurement presets	No measurement, center spot, hot spot, cold spot
Emissivity correction	3 pre-set and 1 custom emissivity setting

Storage capacity	Removable SD card (16 GB)
Image file format	Radiometric JPEG
Visual camera resolution	2 MP
Visual camera field of view (FOV)	83°
Worklight	Bright LED
Data communication interface	
USB	USB Type-C: data transfer/power
Additional data	
Battery type	Rechargeable 3.7 V Li-ion
Battery operating time	>5 hours (full LCD brightness and worklight on)
Probe length	2 m (6.6 ft)
Probe tip shape	Rectangular (side-viewing camera)
Weight (including battery)	Complete kit with case: 13 kg (28.66 lb) Display: 640 g (1.41 lb) Probe: 470 g (1.04 lb)
Size (L×W×H)	Complete kit with case: $120 \times 48 \times 20 \text{ cm}$ ($47 \times 18.90 \times 7.87 \text{ in}$ Display: $26.4 \times 11 \times 11 \text{ cm}$ ($10.4 \times 4.3 \times 4.3 \text{ in}$) Probe: $212.2 \times 0.69 \text{ cm}$ ($83.5 \times 0.3 \text{ in}$) Probe tip: $74.16 \times 40.52 \times 11 \text{ mm}$ ($2.9 \times 1.6 \times 0.4 \text{ in}$)
